DETAILED ACTION

Allowable Subject Matter

Claims 1 – 8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Claims 1 and 5, Applicant's arguments are persuasive. Crocket and Suzuki (considered the closest prior art) do not disclose the exact equation claimed in claims 1 and 5 of Applicant's claims. Specifically, the equation in Suzuki does not include the right shift factor m recited in ^{the} ~~ten~~ equation of claims 1 and 5. Suzuki's m is ~~the~~ the index of the summation rather than the right shift factor. Further, Suzuki's equation fails to teach a division by $M_{sub.k}$.

Regarding the Double Patenting rejections, Applicant's arguments are persuasive. Specifically, the equations (which are the main point of difference) perform different calculations. The '175 application includes an equation that does not have a division by $M_{sub.k}$. Furthermore, the equation of the '175 application uses only ~~ten~~ ^{the} sign bit of the functions while the instant application use a variable number of bits dependent upon the value of m .

Claims 2 – 4, 6 and 7 are allowable as being dependent upon an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
